Get Married...

I love taking pictures of people as they get married. There is something about that simple commitment that never fails to move me, and often leaves me quite tearful (happily, as yet I have not ruined a picture because of it...!).

I love the flowers, the emotion, the nerves, the mania, the tears of the future mother-in-law, the way time races and stops still, and the overwhelming privilege of being allowed into someone's life for a few hours to record one of the most important

events in it. I love how it all comes down to that kiss.

Also, I get to be in proximity to large amounts of cake - what's not to love about that?

This short brochure should give you a favour of the packages I offer and what you get for your investment.

Extras!

Love/Trash the dress session	An opportunity to climb back in that gorgeous dress again and have some fantastic images taken of you looking as fab as you did on your wedding day. We would go to an agreed place and bring out the hidden Kate Moss in you. If you are feeling brave we could go for a Trash the Dress session where we would create some images to remember of you jumping into the sea or likewise wearing you dress-to-end-all-dresses. Surely better than leaving it in the back of the wardrobe?! Comes complete with digital files and 10x8" prints.	£250
The Photobooth	A fab background and some studio lights somewhere in your wedding venue can make a great photobooth for your friends and family to visit. I can provide props and costumes if desired, or theme it to match your wedding. Images are supplied in High-resolution digital format. Please ask for details.	£300 for 90 mins
Album upgrade	You can upgrade your Folio album by adding pages or making it larger, and you can also order smaller versions for family or friends.	£POA
